

International Journal of Knowledge Engineering

CONTENTS

Volume 1, Number 1, June 2015

• Knowledge Engineering and Management

- Bioenergy Ontology for Automatic Pathway Generation.....1
Krishna Sapkota, Pathmeswaran Raju, Craig Chapma, William Byrne, and Lynsey Melville
- Improving Recommendation Using Trust and Sentiment Inference from OSNs.....9
Dimah Alahmadi and Xaio-Jun Zeng
- Knowledge Management in the Major Knowledge Repositories in India.....18
Naushad Ali P. M. and Jafar Iqbal
- A Domain Ontology Based Approach to Identify Effect Types of Security Requirements upon Functional Requirements.....24
Bilal Al-Ahmad, Kenneth Magel, and Sameer Abufardeh
- Ontology Guided Semantic Self Learning Framework.....30
Darshika N. Koggalahewa and Asoka S. Karunananda
- Ontology Driven Continuous Learning Approach.....37
Dakshi T. K. Geeganage and Asoka. S. Karunananda
- Knowledge Management, Innovation and Organizational Performance.....43
Samina Nawab, Tahira Nazir, Muhammad Mohsin Zahid, and Syed Muhammad Fawad
- Joint Model of Korean Part-of-Speech Tagging and Dependency Parsing with Partial Tagged Corpus.....49
Youngmin Park and Jungyun Seo
- Factor Analysis for Game Software Using Structural Equation Modeling with Hierarchical Latent Dirichlet Allocation in User's Review Comments.....54
Rikuto Kunimoto, Hiroshi Kobayashi, and Ryosuke Saga
- Impact of Feature Selection Technique on Email Classification.....59
Aakanksha Sharaff, Naresh Kumar Nagwani, and Kunal Swami
- Agricultural Knowledge-Based Systems at the Age of Semantic Technologies.....64
E. Jahanshiri and S. Walker
- Mining Customer Feedback Documents.....68
Eduard Alexandru Stoica and Esra Kahya Özyirmidokuz
- #### • Intelligent Systems and Applications
- Robust Object Tracking via Multi-block and Sparsity-Based Representation.....72
Wu Wang, Jinxu Tao, Weiquan Ye, Yongjun Jiang, and Zhongfu Ye

Proposal of Chance Index in Co-occurrence Visualized Network.....78
Yukihiro Takayama and Ryosuke Saga
